58-530W 	White nylon	Gauntlet	Burgundy with black hand	Textured	Not applicable	N/A	7, 8, 9, 10, 11	305	6 pairs in a bag, 12 bags in a carton
58-535W 	White nylon	Gauntlet	Burgundy with black hand	Textured	Not applicable	N/A	7, 8, 9, 10, 11	356	6 pairs in a bag, 12 bags in a carton

Unique combination of grip and chemical resistance

PRIMARY INDUSTRIES

IDEAL APPLICATIONS

- Chemical handling
- Printing industry
- Mining
- Aerospace
- Emergency services
- Maintenance
- Agrochemicals
- Chemical handling, especially caustics and solvents
- Handling objects coated in grease and oils
- Handling paints, inks, dyes, glues and adhesives
- Refining - Oil & Petrol

DESCRIPTION

- The AlphaTec® glove incorporates revolutionary Ansell Grip Technology™ to enable users to handle wet or oily objects with less grip force and more control. This unique combination of liquid-proof chemical resistance and grip, together with flexibility and dexterity, makes the AlphaTec® glove the logical choice when working with chemicals.
- Reliable chemical protection for added user safety. The patented Ansell Grip Technology™ ensures that the coating polymer does not penetrate the liner during manufacture. The coating is therefore consistent and sound, significantly reducing the likelihood of chemical leakage onto the skin.
- AlphaTec® gloves have a chemical resistance performance equivalent to the Sol-Vex® 37-645 glove.
- AlphaTec® models with white nylon liner are recommended for indoor applications, whereas AlphaTec® models with black acrylic liner are recommended for outdoor applications.
- AQL 0.65 (EN374)

FEATURED TECHNOLOGY

Ansell Grip Technology™

CATEGORY III

Antistatic according to EN1149
