

Fibre-Metal® Fibre-Metal E2 SwingStrap E2SWV - Blue E2 Smooth Crown Cap Style Hard Hat, SwingStrap, Black

- Fibre-Metal® SuperEight™ SwingStrap™ hats and caps are the most sophisticated head protection system available
- They are the only hats and caps that combine the exceptional comfort of a 360° padded sweatband with the head hugging stability and easy adjustment of a ratchet headband
- The exclusive smooth crown design contains a technically advanced suspension with eight load bearing points to stabilize and balance the hat or cap during everyday wear
- On impact the SuperEight™ Impact Energy Control System dissipates force by reducing it to smaller increments and spreading it over a greater area
- When a welding helmet, faceshield or goggle are mounted on SuperEight™ SwingStrap™ caps, workers can convert their cap from the normal wearing position (and back) with the patented SwingStrap™ without having to remove, reverse and reinstall the suspension headband.
