## FUNCTIONAL PERFORMANCE

**US Standard: ANSI/ISEA 105-2011 American National Standard for Hand Protection Selection Criteria**

| Test Method    | Clause | ANSI Level |
|----------------|--------|------------|
| Cut Resistance | -      | 4          |

## SERVICE LIFE

The service life of this product will vary depending on the application and type of care administered. This product should be replaced immediately once a critical or major defect as defined below is noted.

|                         |                                                                           |
|-------------------------|---------------------------------------------------------------------------|
| <b>Critical Defects</b> | Holes/tears                                                               |
| <b>Major Defects</b>    | Dimensional or weight nonconformance, discoloration, other fabric defects |

## LAUNDERING GUIDELINES

For best results, leather gloves should be dry cleaned

## GENERAL INFORMATION

**CAUTION** – This product is cut resistant, not cut proof. Do not use near moving or serrated blades. It is possible for gloves to meet the necessary puncture resistant requirements without providing adequate protection against sharply pointed objects such as hypodermic needles. Use caution when selecting.
