Test Method	Clause	ANSI Level
ASTM F2992-15 Cut Resistance	-	A8

SERVICE LIFE

The service life of this product will vary depending on the application and type of care administered. This product should be replaced immediately once a critical or major defect as defined below is noted.

Critical Defects	Holes/tears
Major Defects	Dimensional or weight nonconformance, discoloration, other fabric defects

LAUNDERING GUIDELINES

Sleeves can be machine washed according to these instructions: Brush large particles from the sleeve. Rinse in cold water. Use commercial laundry soap or detergent. May be bleached with a solution of 5.25% sodium hypochlorite (household bleach) diluted to 1:10 as a sanitizer & help restore whiteness. Wash for 10 minutes in warm water, do not exceed 120 degrees Fahrenheit / 50 degrees Celsius. Rinse in cold water. Use high speed spin extraction for best results. Tumble dry – do not exceed 150 degrees Fahrenheit / 65 degrees Celsius or dry for longer than 10 minutes.

GENERAL INFORMATION

CAUTION – This product is cut resistant, not cut proof or puncture resistant. Do not use near moving or serrated blades.
